The rate increase is due to a 1.5 percent hike in the spot market rate for electricity, which Meralco said is the main reason for the increase.

According to Meralco, the rate increase will be applied to all customers, including those who are on a fixed rate contract.

The company said that the rate increase is necessary to cover the cost of the electricity it purchases from the spot market. It also said that the rate increase is in line with the rate increase in the spot market.
